Happy 2019 Miranda –

Please see attached for comments on the draft Deschutes QAPP. A couple major concerns:

- Available data section needs a lot of work – very hard to evaluate if the scope of modeling is workable
- Ecology's QUAL2Kw model may not need to be recalibrated but this QAPP makes it a foregone conclusion
- Relationship to Budd Inlet work by Ecology is confusing

Let's discuss when you're settled back in.

Cheers. -BC
